Jogo de paciência

Dos 7 aos 99 anos.

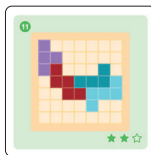

Número de jogadores: 1

1 base, 11 peças de madeira (6 tetraminós e 5 pentaminós), 30 cartas de desafio (níveis de dificuldade crescente)

★ Fácil

★ ★ Médio

★ ★ ★ Difícil

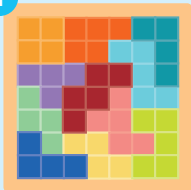

Objetivo do jogo: Reconstituir o quadrado utilizando todas as peças

Desenrolar do jogo: Disponha as 11 peças e a base em cima da mesa e coloque as cartas de desafio ao lado. Retire uma das cartas de desafio e coloque as peças impostas na base, tal como indicado na carta. Tente então colocar as peças restantes, com a face que contém as ranhuras visível, a fim de preencher a base sem a ultrapassar. Para cada desafio, apenas uma combinação é possível!

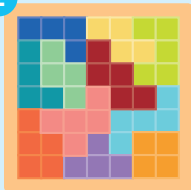

Soluções no fim do folheto.
